Waste bin cooler for one 120 l / 240 l bin

The waste bin cooler offers a hygienic solution for waste disposal in professional kitchens, supermarkets, or at businesses such as veterinarians. The waste is kept at temperatures suitable for fresh produce, which reduces the degradation of organic waste. This cooler has room for one waste bin, either 120 l or 240 l (not included). A lid at the top grants easy access for waste disposal. The lid has a magnetic gasket which ensures that it seals effectively and prevents contamination of the surrounding areas. The waste bin cooler has a ramp which makes it easy to roll the waste bin in and out when it is time for emptying it. The waste bin cooler has climate class 5 with a maximum ambient temperature of +43°C and 65% humidity.
